REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

(14)PWCR14000748

To the Board of Directors and Stockholders of Senao Networks, Inc.

We have reviewed the accompanying consolidated balance sheets of Senao Networks, Inc. and its subsidiaries as of June 30, 2014 and 2013, and the related consolidated statements of comprehensive income for the three-month and six-month periods then ended, of changes in equity and of cash flows for the six-month periods then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Except as explained in the following paragraph, our reviews were made in accordance with the Generally Accepted Auditing Standards No. 36, "Review of Financial Statements" in the Republic of China. A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

As explained in Note 4(3), we did not review the financial statements of certain insignificant consolidated subsidiaries, which statements reflect total assets of $171,518 thousand and $180,193 thousand, constituting 4% and 6% of the consolidated total assets, and total liabilities of $72,620 thousand and $62,778 thousand, both constituting 3% of the consolidated total liabilities as of June 30, 2014 and 2013, respectively, and total comprehensive income (loss) of $1,552 thousand, ($1,883) thousand, $5,783 thousand and ($6,686) thousand, constituting 1%, (2%), 2% and (4%) of the consolidated total comprehensive income for the three-month and six-month periods then ended, respectively. These amounts and the information disclosed in Note 13 were based solely on the unreviewed financial statements of these companies as of June 30, 2014 and 2013.

Based on our reviews, except for the effect of such adjustments if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and the information disclosed in Note 13 been reviewed by independent accountants, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and IAS 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission (FSC).

SENAO NETWORKS, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX-MONTH PERIODS ENDED JUNE 30, 2014 AND 2013

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

(Unaudited)

1. HISTORY AND ORGANIZATION

Senao Networks, Inc. (the "Company") was established as a result of the spin-off of the wireless communication department of Senao International Co., Ltd. The Company assumed all the department's business, assets and liabilities effective October 1, 2006. The Company's registration was approved by the Ministry of Economic Affairs, R.O.C. on October 12, 2006. The Company started selling shares publicly at the Taiwan Over-The-Counter Exchange on December 30, 2013. The Company is mainly engaged in the sales of wireless communication products. As of June 30, 2014, the Company and its subsidiaries (together referred herein as the Group) had approximately 1,000 employees.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

The consolidated financial statements were authorised for issuance by the Board of Directors on July 30, 2014.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

None.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

According to Financial-Supervisory-Securities-Auditing No. 1030010325 issued on April 3, 2014, commencing 2015, companies with shares listed on the TWSE or traded on the Taiwan GreTai Securities Market or Emerging Stock Market shall adopt the 2013 version of IFRS (not including IFRS 9, 'Financial instruments') as endorsed by the FSC in preparing the consolidated financial statements. The related new standards, interpretations and amendments are listed below:

New Standards, Interpretations and Amendments	Effective Date by International Accounting Standards Board
Limited exemption from comparative IFRS 7 disclosures for first-time adopters (amendment to IFRS 1)	July 1, 2010
Severe hyperinflation and removal of fixed dates for first-time adopters (amendment to IFRS 1)	July 1, 2011
Government loans (amendment to IFRS 1)	January 1, 2013
Disclosures－Transfers of financial assets (amendment to IFRS 7)	July 1, 2011
Disclosures－Offsetting financial assets and financial liabilities (amendment to IFRS 7)	January 1, 2013
IFRS 10, 'Consolidated financial statements'	January 1, 2013 (Investment entities: January 1, 2014)
IFRS 11, 'Joint arrangements'	January 1, 2013
IFRS 12, 'Disclosure of interests in other entities'	January 1, 2013
IFRS 13, 'Fair value measurement'	January 1, 2013
Presentation of items of other comprehensive income (amendment to IAS 1)	July 1, 2012
Deferred tax: recovery of underlying assets (amendment to IAS 12)	January 1, 2012
IAS 19 (revised), 'Employee benefits'	January 1, 2013
IAS 27, 'Separate financial statements' (as amended in 2011)	January 1, 2013
IAS 28, 'Investments in associates and joint ventures' (as amended in 2011)	January 1, 2013
Offsetting financial assets and financial liabilities (amendment to IAS 32)	January 1, 2014
IFRIC 20, 'Stripping costs in the production phase of a surface mine'	January 1, 2013
Improvements to IFRSs 2010	January 1, 2011
Improvements to IFRSs 2009－2011	January 1, 2013

Based on the Group's assessment, the adoption of the 2013 version of IFRS has no significant impact on the consolidated financial statements of the Group, except the following:

A. IAS 19 (revised), 'Employee benefits'

The guideline increases disclosure rules for defined benefit plans.

B. IAS 1, 'Presentation of financial statements'

The amendment requires entities to separate items presented in OCI classified by nature into two groups on the basis of whether they are potentially reclassifiable to profit or loss subsequently when specific conditions are met. If the items are presented before tax then the tax related to each of the two groups of OCI items (those that might be reclassified and those that will not be reclassified) must be shown separately. Accordingly, the Group will adjust its presentation of the statement of comprehensive income.

C. IFRS 12, 'Disclosure of interests in other entities'

The standard integrates the disclosure requirements for subsidiaries, joint arrangements, associates and unconsolidated structured entities. The Group will disclose additional information about its interests in consolidated entities and unconsolidated entities accordingly.

For the above items, the Group is assessing their impact on the consolidated financial statements and will disclose the affected amounts accordingly.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the 2013 version of IFRS as endorsed by the FSC:

New Standards, Interpretations and Amendments	Effective Date by International Accounting Standards Board
IFRS 9, 'Financial instruments'	Not yet been decided
Accounting for acquisition of interests in joint operations (amendments to IFRS 11)	January 1, 2016
IFRS 14, 'Regulatory deferral accounts'	January 1, 2016
IFRS 15, 'Revenue from contracts with customers'	January 1, 2017
Clarification of acceptable methods of depreciation and amortisation (amendments to IAS 16 and IAS 38)	January 1, 2016
Agriculture: bearer plants (amendments to IAS 16 and IAS 41)	January 1, 2016
Defined benefit plans: employee contributions (amendments to IAS 19R)	July 1, 2014
Recoverable amount disclosures for non-financial assets (amendments to IAS 36)	January 1, 2014
Novation of derivatives and continuation of hedge accounting (amendments to IAS 39)	January 1, 2014
IFRIC 21, 'Levies'	January 1, 2014
Improvements to IFRSs 2010-2012	July 1, 2014
Improvements to IFRSs 2011-2013	July 1, 2014

The Group is assessing the potential impact of the new standards, interpretations and amendments above and has not yet been able to reliably estimate their impact on the consolidated financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and IAS 34, 'Interim Financial Reporting' as endorsed by the FSC.

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

(b) Defined benefit liabilities recognised based on the net amount of pension fund assets plus unrecognised past service cost and unrecognised actuarial losses, and less unrecognised actuarial gains and present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Principles for consolidation of financial reports:

(a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies. In general, control is presumed to exist when the parent owns, directly or indirectly through subsidiaries, more than half of the voting power of an entity.

(b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated.

B. Subsidaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Main business activities	Ownership (%) June 30, 2014	Ownership (%) December 31, 2013	Ownership (%) June 30, 2013	Description
Senao Networks, Inc.	EnGenius Technologies, Inc.	Sales of communication products	100	100	100	
Senao Networks, Inc.	Senao International (Samoa) Ltd.	Investment holdings	100	100	100	
Senao Networks, Inc.	EnGenius Networks Malaysia Sdn. Bhd	Development of communictaion products	100	100	100	
Senao International (Samoa) Ltd.	EnGenius International (Samoa) Ltd.	Investment holdings	100	100	100	
EnGenius International (Samoa) Ltd.	EnGenius Networks Singapore Pte. Ltd.	Sales of communication products	100	100	100	
EnGenius Networks Singapore Pte. Ltd.	EnGenius Networks Europe B.V.	Sales of communication products	100	100	100	
EnGenius Technologies, Inc.	EnGenius Technologies, Miami, Inc.	Sales of communication products	100	100	100	
EnGenius Technologies, Inc.	SuperTel Technologies, Inc.	Development of communication products	100	100	100	

Except for EnGenius Technologies, Inc., the financial statements of certain consolidated subsidiaries for the six-month periods ended June 30, 2014 and 2013 were not reviewed by independent accountants. The total assets of these unreviewed subsidiaries as of June 30, 2014 and 2013 were $171,518 and $180,193, respectively, and the total liabilities were $72,620 and $62,778, respectively, and total comprehensive income for the three-month and six-month periods then ended were $1,552, ($1,883), $5,783 and ($6,686), respectively.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.

(b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

(c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

(d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

(a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

(b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

(c) All resulting exchange differences are recognised in other comprehensive income.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

(a) Assets arising from operating activities that are expected to be realized or consumed, or are intended to be sold within the normal operating cycle;

(b) Assets held mainly for trading purposes;

(c) Assets that are expected to be realized within twelve months from the balance sheet date;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

(a) Liabilities arising from operating activities that are expected to be paid off within the normal operating cycle;

(b) Liabilities arising mainly from trading activities;

(c) Liabilities that are to be paid off within twelve months from the balance sheet date;

(d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are:

A. Readily convertible to known amounts of cash

B. Subject to an insignificant risk of changes in value.

Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets held for trading. Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets (liabilities) held for trading.

B. On a regular way purchase or sale basis, financial assets held for trading are recognised and derecognised using trade date accounting, and derivative instruments and financial assets (liabilities) recognised at fair value through profit or loss on initial recognition are recognised and derecognised using settlement date accounting.

C. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in profit or loss.

(8) Accounts receivable

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) Impairment of financial assets

A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:

(a) Significant financial difficulty of the issuer or debtor;

(b) A breach of contract, such as a default or delinquency in interest or principal payments;

(c) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;

(d) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;

(e) The disappearance of an active market for that financial asset because of financial difficulties.

(10) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(12) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

B. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

C. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Machinery and equipment	4 ~ 7 years
Molding equipment	2 ~ 7 years
Transportation equipment	5 ~ 7 years
Office equipment	3 ~ 7 years
Other equipment	4 ~ 6 years
Leasehold improvements	2 years

(13) Leased assets/leases (lessee)

Payments made under an operating lease (net of any incentives received from the lessor) are recognised in profit or loss on a straight-line basis over the lease term.

(14) Intangible assets

A. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 2 to 3 years.

B. Other intangible assets

Intangible assets pertain to distribution rights and intellectual property, which are not amortized because of expected cash flows to be derived continually from the asset. This asset is subject to test of impairment on an annual basis.

(15) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(16) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(17) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(18) Provisions

Provisions (including warranties and sales discounts, etc.) are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation.

(19) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognised past service costs. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds at the balance sheet date.

ii. Actuarial gains and losses arising on defined benefit plans are recognised in other comprehensive income.

iii. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. The related information is disclosed accordingly.

C. Employees' bonus and directors' and supervisors' remuneration

Employees' bonus and directors' and supervisors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. However, if the accrued amounts for employees' bonus and directors' and supervisors' remuneration are different from the actual distributed amounts as resolved by the stockholders at their stockholders' meeting subsequently, the differences should be recognised based on the accounting for changes in estimates. The Group calculates the number of shares of employees' stock bonus based on the fair value per share at the previous day of the stockholders' meeting held in the year following the financial reporting year, and after taking into account the effects of ex-rights and ex-dividends.

(20) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

(21) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

E. A deferred tax asset shall be recognised for the carryforward of unused tax credits to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

F. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

(22) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities.

(23) Revenue recognition

A. Sales of goods

(a) The Group manufactures and sells internet and wireless products. Revenue is measured at the fair value of the consideration received or receivable taking into account value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods should be recognised when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

(b) The Group offers customers discounts and estimates such discounts based on historical experience. Provisions for such liabilities are recorded when the sales are recognised.

B. Sales of services

The Group provides repair and maintenance on communication services. Revenues are recognised once all the criteria below are met and costs are recognised when services are rendered.

(a) revenue can be measured reliably;

(b) it is probable that the future economic benefits associated with the transaction will flow to the company; and

(c) costs incurred or expected to be incurred can be measured realiably.

(24) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies but no critical judgements were made. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The information is addressed below:

(1) Impairment assessment of other intangible assets

The Group assesses impairment based on its subjective judgement and determines the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on how assets are utilised and industrial characteristics. Any changes of economic circumstances or estimates due to the change of Group strategy might cause material impairment on assets in the future.

As of June 30, 2014, the Group recognised other intangible assets, net of impairment loss, amounting to $7,466.

(2) Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of June 30, 2014, the carrying amount of inventories was $470,977.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	June 30, 2014	December 31, 2013	June 30, 2013
Cash on hand and petty cash (revolving funds)	$ 172	$ 468	$ 517
Checking deposits and demand deposits	121,850	113,703	57,499
Time deposits	2,255,668	2,066,571	1,297,542
	$ 2,377,690	$ 2,180,742	$ 1,355,558

A. The Group associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote. The Group’s maximum exposure to credit risk at balance sheet date is the carrying amount of all cash and cash equivalents (excluding cash on hand and petty cash).

B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets (liabilities) at fair value through profit or loss

Items	June 30, 2014	December 31, 2013	June 30, 2013
Financial assets:			
Financial assets held for trading			
Futures trust fund	$ -	$ 15,000	$ -
Quasi money market fund	-	-	2,000
Valuation adjustment	2,317	(10)	4
	$ 2,317	$ 14,990	$ 2,004
Financial liabilities:			
Financial liabilities held for trading			
Valuation adjustment	$ -	($ 4,243)	($ 1,981)

A. The Group recognised net gain (loss) of $6,364, ($1,993), ($3,839) and ($12,278) on financial assets (liabilities) held for trading for the three-month and six-month periods ended June 30, 2014 and 2013, respectively.

B. The unsettled derivative financial assets (liabilities) transaction and contract information are as follows:

Derivative financial liabilities	June 30, 2014 Contract amount (value of return) (in thousands)	June 30, 2014 Contract period	December 31, 2013 Contract amount (value of return) (in thousands)	December 31, 2013 Contract period
Forward foreign exchange contracts-Sell in advance	USD 15,000	2014.5.15~ 2014.8.27	USD 16,000	2013.11.6 ~2014.2.19

Derivative financial liabilities	June 30, 2013 Contract amount (value of return) (in thousands)	June 30, 2013 Contract period
Forward foreign exchange contracts-Sell in advance	USD 13,000	2013.4.25 ~2013.8.28

C. The Company entered into forward exchange contracts to manage exposures to foreign exchange rate fluctuations of import or export sales. However, the forward exchange transactions did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting.

(3) Accounts receivable

	June 30, 2014	December 31, 2013	June 30, 2013
Accounts receivable	$ 870,149	$ 647,846	$ 690,050
Less: Allowance for bad debts	(5,341)	(5,512)	(1,288)
	$ 864,808	$ 642,334	$ 688,762

A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	June 30, 2014	December 31, 2013	June 30, 2013
Up to 30 days	$ 57,924	$ 84,710	$ 63,038
31 to 90 days	12,734	7,298	3,059
91 days to 180 days	16	-	-
	$ 70,674	$ 92,008	$ 66,097

The above ageing analysis was based on past due date.

B. Movements of the allowance for bad debts of financial assets that were past due analysed based on individual and group provisions are provided below:

	2014		
	Individual provision	Group provision	Total
At January 1	$ 4,637	$ 875	$ 5,512
Reversal for impairment	-	(167)	(167)
Effect of exchange rate	-	(4)	(4)
At June 30	$ 4,637	$ 704	$ 5,341

	2013		
	Individual provision	Group provision	Total
At January 1	$ -	$ 2,217	$ 2,217
Reversal of impairment	-	(930)	(930)
Effect of exchange rate	-	1	1
At June 30	$ -	$ 1,288	$ 1,288

C. The credit quality of accounts receivable that were neither past due nor impaired was in the following categories based on the Group's Credit Quality Control Policy:

	June 30, 2014	December 31, 2013	June 30, 2013
Group 1	$ 624,342	$ 413,370	$ 470,319
Group 2	169,792	136,956	152,346
	$ 794,134	$ 550,326	$ 622,665

Group 1：OEM customer

Group 2：OBM customer

D. The maximum exposure to credit risk at June 30, 2014, December 31, 2013 and June 30, 2013 was the carrying amount of each class of accounts receivable.

E. The Group does not hold any collateral as security.

(4) Inventories

	June 30, 2014		
	Cost	Allowance for valuation loss	Book value
Raw materials	$ 169,683	($ 7,098)	$ 162,585
Work in process	143,887	-	143,887
Finished goods	170,955	(6,450)	164,505
	$ 484,525	($ 13,548)	$ 470,977

	December 31, 2013		
	Cost	Allowance for valuation loss	Book value
Raw materials	$ 153,698	($ 6,166)	$ 147,532
Work in process	166,354	-	166,354
Finished goods	180,614	(3,926)	176,688
	$ 500,666	($ 10,092)	$ 490,574

	June 30, 2013		
	Cost	Allowance for valuation loss	Book value
Raw materials	$ 245,908	($ 7,544)	$ 238,364
Work in process	106,300	-	106,300
Semi-finished goods	818	(105)	713
Finished goods	144,094	(3,793)	140,301
	$ 497,120	($ 11,442)	$ 485,678

The cost of inventories recognised as expense for the three-month and six-month periods ended June 30, 2014 and 2013 was $1,092,825, $847,078, $2,044,168 and $1,575,229, respectively. The cost for the three-month and six-month periods ended June 30, 2014 includes the amount of $1,041 and $5,721, respectively, that the Group wrote down from cost to net realizable value which was accounted for as cost of goods sold; while the cost for the three-month and six-month periods ended June 30, 2013 includes a decrease in cost of goods sold amounting to ($396) and ($8), respectively, as a result of the reversal of net present value of inventory when the related inventory was scrapped.

(5) Property, plant and equipment

	$ 276	$ 131

(c) Expected contributions to the defined benefit pension plans of the Company within one year from June 30, 2014 are $1,019.

B. Defined contribution plan

(a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plan of the Company for the three-month and six-month periods ended June 30, 2014 and 2013 were $6,430, $5,786, $12,800 and $11,632, respectively.

(b) Senao International (Samoa) Ltd., EnGenius International (Samoa) Ltd. and EnGenius Networks Europe B.V. have yet to establish an employee pension plan. EnGenius Technologies, Inc., SuperTel Technologies, Inc., EnGenius Networks Singapore Pte. Ltd., EnGenius Technologies, Miami, Inc. and EnGenius Networks Malaysia Sdn. Bhd follow the established pension regulations of their respective local governments. These subsidiaries pay monthly pension contributions and have no further obligations. The pension costs under the defined contribution pension plans of the above companies for the three-month and six-month periods ended June 30, 2014 and 2013 were $1,129, $1,009, $2,101 and $1,896, respectively.

A. The Company is currently in the growth stage. Based on capital expenditures and needs for branching out and completing financial plans to pursue sustainable development, the Company's dividend policy is in accordance with the future budget of capital expenditure and capital needs. Cash dividends and stock dividends are to be distributed to the shareholders. Cash dividends shall account for at least 5% of the total dividends distributed.

B. Under the Company's Articles of Incorporation amended on May 31, 2013, the current year's retained earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. However, there is no need to appropriate for legal reserve if the legal reserve has reached the Company's total capital. Bonus distributed to the employees should not be lower than 3% of the remainder while bonus distributed as directors' compensation should not be higher than 3%. The remaining surplus shall be combined with the remaining surplus at the beginning of the year and counted as unappropriated retained earnings. The method of distribution shall be proposed by the board of directors and presented to the shareholders for approval.

   The qualifications of employees who are entitled to receive dividends are to be set by the Board of Directors.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. The company's regulations on the appropriation and reversal of special reserves are as follows:

(a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

E. The appropriations of 2013 and 2012 earnings had been approved during the stockholders' meeting on June 25, 2014 and May 31, 2013, respectively. Details are summarized below:

	2013		2012	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	$ 42,192	$ -	$ 29,596	$ -
Special reserve	(4,566)	-	7,710	-
Cash dividends	294,800	6.1	167,784	4.0
	$ 332,426	$ 6.1	$ 205,090	$ 4.0

Furthermore, as approved at the stockholders' meeting, employees' bonuses amounting to $37,971 and $26,520, and directors' and supervisors' remuneration amounting to $11,385 and $8,107 for the years ended December 31, 2013 and 2012, respectively, were the same with the amounts proposed at the Board of Directors' meetings on March 10, 2014 and March 8, 2013, respectively. The employees' bonuses and directors' and supervisors' remuneration as approved by the shareholders were $6 and $3 less than the amounts recognised in the financial statements for the years ended December 31, 2013 and 2012, respectively. The difference had been adjusted in the second quarter of 2014 and 2013. Retained earnings as of December 31, 2013 have not been distributed. Information on the appropriation of the Company's earnings as resolved by the Board of Directors and approved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange

F. The estimated amounts for employees' bonuses for the three-month and six-month periods ended June 30, 2014 and 2013 was accrued at $14,012, $9,640, $25,112 and $16,430, respectively; directors' and supervisors' remuneration was accrued at $4,354, $2,911, $7,684 and $4,989, respectively. The estimation was based on a certain percentage stated in the Company's Articles of Incorporation, and the Company uses the post-tax profit and considers the appropriation of legal reserve and other factors to estimate and recognise the amount as operating expenses for the year. If the estimated amount is different from the amount approved by the stockholders, the difference shall be recognised as gain or loss in the year the bonus was approved.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to maintain an optimal capital ratio to support the Group's operations and to maximise the shareholders' equity. The Group builds a suitable capital structure based on the future growths and gearing ratios of the industry and the consideration of costs and risks that may result from different capital structures. The Group normally utilises a meticulous risk management policy.

(2) Financial instruments

A. Fair value information of financial instruments

The carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable, other receivables (including related parties), short-term loans, notes payable, accounts payable and other payables (including related parties)) are approximate to their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(3).

B. Financial risk management policies

The Group adopts overall risk management and control systems to identify, measure and control all kinds of risk (including market risk, credit risk and liquidity risk and cash flow risk), so that the management of the Group can effectively control and evaluate market risk, credit risk, liquidity risk and cash flow risk.

The Group maintains an optimal level of liquidity and centralises risk management operations in order to effectively monitor and control the various kinds of market risks and to achieve management objectives. This decision is made with consideration of the economic environment, competitive status and market value risk.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

i. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

ii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD and EUR). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

(Foreign currency: functional currency)	June 30, 2014

Price risk

Except for derivative financial instruments, the Group's financial assets measured at fair value through profit or loss were disposed as of June 30, 2014. Thus, the Group did not have price risk from investment in equity instruments.

Interest rate risk

The Group's interest rate risk arises from short-term borrowings. Borrowings issued at fixed rates expose the Group to fair value interest rate risk.

(b) Credit risk

i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Credit risk arises from cash and cash equivalents, derivative financial instruments, notes payable and other receivables as well as credit exposures to customers, including outstanding receivables. For banks and financial institutions, only the parties with excellent credit ratings are accepted.

ii. No credit limits were exceeded during the reporting periods for June 30, 2014 and 2013, and management does not expect any significant losses from non-performance by these counterparties.

iii. For credit quality information of financial assets that are neither past due nor impaired, please refer to Note 6(3).

iv. For details on the ageing analysis of financial assets that were past due but not impaired, please refer to Note 6(3).

v. The group analysis of financial assets that had been impaired is provided in the statement for each type of financial assets in Note 6(3).

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.

ii. Surplus cash held by the operating entities over and above the balance required for working capital management are invested in interest bearing current accounts, time deposits, and marketable securities. The Group chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

iii. The table below analyses the Group's non-derivative financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

There were no derivative financial liabilities as of June 30, 2014.

(3) Fair value estimation

A. The table below analyses financial instruments measured at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data.

The following table presents the Group’s financial assets and liabilities that are measured at fair value on June 30, 2014, December 31, 2013 and June 30, 2013:

June 30, 2014	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Forward exchange contracts	$ -	$ 2,317	$ -	$ 2,317

December 31, 2013	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Futures Trust Fund	$ 14,990	$ -	$ -	$ 14,990
Financial liabilities:				
Financial liabilities at fair value through profit or loss				
Forward exchange contracts	-	(4,243)	-	(4,243)
	$ 14,990	($ 4,243)	$ -	$ 10,747

June 30, 2013	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Quasi Money Market Fund	$ 2,004	$ -	$ -	$ 2,004
Financial liabilities:				
Financial liabilities at fair value through profit or loss				
Forward exchange contracts	-	1,981	-	1,981
	$ 2,004	$ 1,981	$ -	$ 3,985

B. The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the net worth of the open-end mutual fund. These instruments are included in level 1. Instruments included in level 1 comprise primarily equity instruments classified as financial assets at fair value through profit or loss.

C. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

D. Specific valuation techniques used to value financial instruments include:

(a) Quoted market prices or dealer quotes for similar instruments.

(b) The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value.

13. SUPPLEMENTARY DISCLOSURES

14. SEGMENT INFORMATION

(1) General information

The information about geographical areas is provided to the chief operating decision-maker to make decisions. The sales orders will be divided into three main areas, namely Taiwan, America and Others (including Europe, Asia and Africa). Because the nature of the product and the model of sales of the three areas are different, and the chief operating decision-maker also uses the information on the three areas in financial management and operational performance evaluation, therefore, the reportable segments are Taiwan, America and Others.

(2) Assessment of segment information

The operational performance evaluation of each segment is based on operating revenue and income (not including administrative expense). All the operating segments consistently apply uniform accounting policies as described in Note 4 of the summary of significant accounting policies. The interdepartmental sales are in accordance with the fair value principle. Revenues from external customers provided to the chief operating decision-maker are measured in a manner consistent with that used for the income statement. The segment information for the six-month periods ended June 30, 2014 and 2013 is provided as follows:

	For the six-month period ended June 30, 2014				
	Taiwan	America	Others	Eliminated transactions during the consolidation	Total
Revenue from external customers	$ 2,012,262	$ 551,583	$ 313,908	$ -	$ 2,877,753
Inter-segment revenue	649,434	105	1,735	(651,274)	-
Total segment revenue	$ 2,661,696	$ 551,688	$ 315,643	($ 651,274)	$ 2,877,753
Segment income	$ 361,549	$ 35,809	$ 26,429	$ -	$ 423,787

	For the six-month period ended June 30, 2013				
	Taiwan	America	Others	Eliminated transactions during the consolidation	Total
Revenue from external customers	$ 1,444,172	$ 494,278	$ 266,540	$ -	$ 2,204,990
Inter-segment revenue	584,282	133	8,283	(592,698)	-
Total segment revenue	$ 2,028,454	$ 494,411	$ 274,823	($ 592,698)	$ 2,204,990
Segment income	$ 233,830	$ 23,120	$ 21,002	$ -	$ 277,952

(3) Reconciliation for segment income (loss)

The Group's segments' operating income reported to the chief operating decision-maker is measured in a manner consistent with the revenue and expenses in the statement of comprehensive income. The Group did not provide the chief operating decision-maker with the amount of total assets and liabilities for decision making purposes. A reconciliation of reportable segment's profit or loss and continuing operations' income before tax is provided as follows:

	For the six-month periods ended June 30,	
	2014	2013
Reportable segments profit	$ 423,787	$ 277,952
Undistributed amount		
General administrative expenses	(107,950)	(96,741)
Non-operating net income	22,215	29,853
Income from continuing operations before income tax	$ 338,052	$ 211,064
